## OIL and GAS NEWS

M. W. Shriver of the Crosbie properties and Ed Morgan left here today for Tulsa.

Crosbie & Davis No. 5 on the Hickman lease in section 10-4-3 is drilling at about 100 feet.

J. E. Crosbie No. 8 on the Roy M. Johnson lease in section 5-4-3 is drilling at a depth of about 100 feet.

J. E. Crosbie No. 12 on the Cruce-Smith lease in section 5-4-3 is drilling at a depth of between 400 and 500 feet.

Coline Oil company has a rig up for No. 4 J. B. Ferguson in section 6-4-3 and will be drilling within a few days. The tools are being moved in today.

The Oklahoma-Louisiana company in section 7-2-2, north of the Wildcat Jim, in the Graham field, has reached a depth of 1150 feet and was putting in a new string of casing yesterday.

Mr. and Mrs. W. A. Thompson, Sam Black and Miss Hall and Miss Alwood of Marietta have been recent visitors to the oil fields. They spent two days in the field and enjoyed the visit very much. Miss Hall and Miss Alwood are teachers in the Marietta schools.

Cushing field say she is the only one in the state who has taken to the business. But why not? It is profitable. It places the woman in God's out-of-doors. It is useful and is a business which she can succeed at as well as the man.

### MOTOR CAR ACCIDENT

E. C. Matthews Had Arm Broken in Two Places; C. Manns Hurt.

An accident which came very near being a serious one, happened yesterday afternoon on the oil field road between here and Lone Grove. Dennis Kemp, who operates a car between Ardmore and the fields, had several passengers and was traveling at about 20 miles an hour when his steering machinery became out of order and the car went over an embankment, throwing the occupants out. The brakes on the car were also not in working condition. In the car were W. G. Skelley of Skelley & Russell, E. C. Matthews of Joplin, Mo., who makes his headquarters in Tulsa, Frank Palmerton of the drilling firm of Palmerton & Fisher, C. Manns, who is drilling for C. M. Hapgood, and Carl Wilder, an oil field worker. Mr. Matthews' right arm was broken in two places. Mr. Manns received internal injuries, and is confined to the Hardy hospital. He received a severe shock, but is not thought to be in a dangerous condition. Mr. Skelley suffered a displacement of the thumb and an injury to the leg, but not serious. He was thrown about twenty feet from the car and was severely shocked and was rather sore this morning. Mr. Palmerton received an injury above the eye, and was sore, but not seriously hurt. When Mr. Matthews was taken to the hospital to have his arm set, Dr. Hardy prepared a room for him but he declined to occupy it, and as soon as the injuries were dressed he went on about his business and dictated a number of letters last night. Outside of the injury to his arm, he received no other hurts.

The driver of a Ford, who had

## FAIR ASSOCIATION WILL BE ORGANIZED

AS SOON AS ALL TOWNSHIPS HAVE REPORTED, OFFICERS WILL BE CHOSEN FOR THE ENSUING YEAR.

With but few to hear from, it appears that all the townships have chosen their members of the County Fair association, and they will convene in this city soon, according to law, and select officers for the ensuing year and make plans for holding the first annual free county fair under the provisions of the recently enacted law.

The following gentlemen have been selected from the various townships to serve as directors: Ardmore, Jack Baird, E. E. Guillot; Morgan, Olin Wolverson; Walter Colbert; Lone Grove, O. K. Darden, J. T. Taylor; Akers, E. E. Riser, W. E. Gardner; Berwyn, Scott Worthy, other not reported. Wilson, Hewitt and Graham have not forwarded the list of their members, although they have informed the secretary of the Chamber of Commerce that the elections were held and delegates chosen.

Every member so far chosen has pledged himself to work unceasingly for the success of the fair. They are all good business men and farmers who take pride in better farming, and the raising of better stock.

The prospects for a very successful fair next season are very rosy at present.

started to the fields for a party, met the injured soon after the accident, and brought them into town.

## Puts Another Face on It

Many a man jauntily takes his cup or two of coffee at a meal and declares that coffee doesn't hurt him!

But wait until the poisonous drug, caffeine, in the coffee begins to show its cumulative effects, and puts a different face on the proposition.

It's a fact anyone can verify, that caffeine hardens the arteries, brings on premature old age, and sallows and wrinkles the skin. Some of the signs are headache, irritability, biliousness, heart flutter, sleeplessness, dizziness, "fag," and so on.

The way out is to quit coffee, and for a pleasant, healthful beverage use

## INSTANT POSTUM

—the pure food-drink.

This delightful beverage is made from finest wheat, roasted with a bit of wholesome molasses. Looks and tastes like high grade Java coffee, but contains no caffeine nor any other harmful substance.

Postum makes for health, happiness, and vigor.

## CHAMBER OF COMMERCE TO REORGANIZE

NEW LIFE AND ACTIVITY WILL MARK BEGINNING OF GREATER CITY — FIRST STEPS TAKEN YESTERDAY.

At a called meeting of the Chamber of Commerce yesterday afternoon it was unanimously decided that new life and ginger must be injected into the organization in order that Ardmore in the future will get her share of the new enterprises that are gradually being located in the gas area of the state, where cheap fuel is available.

President Mullen stated the object of the meeting, and the secretary reported, in a few words, the needs of the Chamber of Commerce, if they, as a body, expected to accomplish anything.

The principal questions under discussion were the necessity of a good road from this city to the oil fields, and also a pipe line to convey gas to this city in order that Ardmore may have something to offer industries to locate here that require cheap fuel. The question of going after small factories was also included, and a committee, consisting of J. W. Harreld, W. B. Johnson and O. C. Lasher was chosen to investigate the legal phases of this question.

A committee on membership was also selected, which, after a meeting at the Chamber of Commerce this afternoon will divide the city into districts and work it in a systematic manner to secure every business man as a member. This committee consists of Kirk Dyer, chairman, N. B. Feagin, J. W. Harreld, Max Westheimer, Harley Harreld, Harold Wallace, S. A. Apple, Col. Sidney Sogars, Charles Friley, and W. C. DeWitt, with J. E. Hamilton and C. L. Byrnes as alternates. This committee will plan a campaign to get every business and professional man, every property owner and all who are interested in the future welfare of the city to become members.

It was decided to have a smoker at the rooms of the Chamber of Commerce on the night of the 29th, at which time the various committees will make a report of progress and suggest any changes they deem necessary. The question of a pipe line to the gas supply and of good roads will be the vital ones with the newly reorganized Chamber of Commerce. Secretary West informed them very pointedly that Ardmore could not hope to compete with other cities which were offering cheap gas for manufacturing purposes, unless the Chamber of Commerce took a more lively interest in the future than it has in the past, and it was the consensus of opinion that it do so, and secure for the city those industries which could be operated here as cheaply as they could be elsewhere. On the night of the 29th it is confidently expected that the committee will have something interesting to report on the progress made.

### Preaching at Springdale.

Rev. T. A. Lampton, pastor East Ardmore Presbyterian church, preached a very able sermon Sunday afternoon at Springdale, east of town.

Text, 1 Timothy 4:14, "Neglect not the gift that is in thee." Springdale will observe Rally Day Wednesday afternoon. All are cordially invited.

MRS. ROBINSON,  
Teacher.

## The General Says:—

"There are some very good reasons why my business is bigger each year than it was the year before."

Some years ago asphalt roofing was sold at high prices because the volume was small and facilities were limited.

When the General entered the field he broke up the high price combine by taking advantage of all possible manufacturing economies, thereby reducing production costs to the minimum and at the same time making a roofing of unexcelled quality.

Eventually the General became recognized as the leader of the entire field, and today the best known and largest used brand in the world is

## Certain-teed Roofing

The General's big success brought about an attempt by others to imitate his policies and prices, but they didn't have the General's wonderful facilities, nor his superior equipment, nor his big organization, and it was an economic impossibility for them to equal the General's quality and price. Consequently with the reduction in price there was a big reduction in quality, and these lower quality roofings began to be sold under labels that had formerly been used on better goods.

Today the market is flooded with low quality roofings, made to sell at cheap prices without regard to the service they will give. When you roof your building with Certain-teed you have a responsible manufacturer's guarantee of 5, 10, or 15 years according to whether the thickness is 1, 2, or 3-ply respectively. This is your advance assurance that Certain-teed will give you at least a definite guaranteed service. Beware of guarantees without responsibility behind them.

Certain-teed products are used and well known by the world over. Consult your local lumber and hardware dealers. They will quote you reasonable prices.
